

Whitepaper 1.0

Invest in the movement  
quickly and privately

## Overview

QCoin (\$QCOIN) is a globally-available, blockchain-based, hyper-deflationary token with a smart staking system. Transactions are governed by a Smart Contract running on the Binance Smart Chain.

The QCoin Smart Contract is a customized smart contract inspired by the SafeMoon Protocol contract, but with various enhancements.

## Our Mission

QCoin's mission is to give all our contributors a voice and avoid censorship by funding the movement quickly and privately.

## The Movement

It's no secret that organizations across the world have been working hard to hide the truth. When a community comprised of honest, hard-working patriots are continuously silenced, our freedom and hope for the future are in jeopardy.

Our goal is to provide not only a currency to help fund the movement, but to create a platform and means for our strongest voices to be heard.

## QCoin's Utility

QCoin is not only a form of cryptocurrency. It is an important ingredient in the plan to grow our community and create an ecosystem for which we can all communicate, express ourselves free of judgement and share credible information without censorship from the woke agenda-driven media of today.

While QCoin will provide a decentralized currency that will allow you more control over your own possessions, as we grow, it will become so much more.

## Tokenomics

QCoin is an eco-friendly Binance Smart Chain token using the Proof of Stake protocol.

QCoin imposes an automatic redistribution of 10% for all transactions.

5% goes back to QCoin holders as reflections (Any wallet holding QCoin is considered a holder and will receive reflections, see Wallet Breakdown for exceptions), while the other 5% is added to the liquidity pool. The more you hold, the more you gain from the tokenomics system.

# Breakdown

Burn

# Roadmap

## Phase 1 - Q3 2021

Launch QCoin.  
Begin planning for  
Phase 2.

## Phase 2 - Q4 2021

Rollout promo and begin  
funding the movement  
and non-censored platforms.

## Phase 3 - Q1/Q2 2022

Stage 2 of marketing  
strategy and deployment,  
targeting more patriots.

## Phase 4 - Q3 2022

Build our own platform for  
free speech to incentivize  
honest information.

## Phase 5 - Q4 2022

Rollout of a secure  
wallet for our members.

Thank you
